

School Vision: Building upon a foundation of social justice and ethic of care, we are a community of learners actively engaged in the development of critical, transformative knowledge for social work practice.

BSW Mission Statement: The Bachelor of Social Work (BSW) program addresses issues of power and issues of discrimination based on age, race, gender, sexual orientation, class and culture. The educational objective of the BSW curriculum is to provide students with the knowledge, values and skills necessary for an initial level of professional practice, focusing on the interface between personal problems and public issues. Critical thinking and structural analysis are central to the learning experience offered by the School and to the promotion of social justice and human well-being.

COURSE DESCRIPTION

This course will explore both the theory and practice needed to work in the field of addictions. This course covers a wide range of topics from specific counselling skills to the context of drugs in our society. A social justice, strengths-based, harm reduction orientation to substance use and addiction will be applied.

The course is divided into a number of different themes, specifically:

- (1) The course will explore addiction and recovery using attachment theory as a foundation.
- (2) A harm reduction based approach to practice in the field of addiction will be examined.
- (3) Mainstream and emergent models of practice at the individual, family, group, community and policy levels will be examined. A number of practice models to addiction treatment will be explored. Selected emergent models of practice will also be discussed.
- (4) Social Justice will be explored throughout this course. Our society’s primary response to illegal drug use and addiction is through the criminal justice system. The evidence shows that this approach has failed. A new model based on social work, human rights and public health principles will be examined.

Participation in this course will allow students to familiarize themselves with the concept of addiction from a range of theoretical perspectives, with an emphasis on a bio-psycho-social-spiritual-environmental understanding of addiction.

Class time will be primarily comprised of presentations, group discussions, and role-plays. Each class will entail a focused

discussion for which the instructor will share responsibility with students for the creation of a positive and engaging learning environment.

RATIONALE

Social workers in virtually all areas of practice deal with individuals, families and communities who have problems related to drugs, substance use and misuse. Social workers can play a role in policy development, health education and promotion, direct provision of addiction-specific services (including treatment services), provision of harm reduction services, assessment, referral/linkage, mobilization of self-help, mediation, advocacy, community development, public education and research

LEARNING OUTCOMES

1. To acquire knowledge in relation to:

- (1) The core concepts in the field of addiction; historical and political context of addiction and drug policy,
- (2) Various theories related to etiology and treatment of addiction,
- (3) The principles of drug action and the physical and psychological effects of the major drugs of abuse (including stimulants, sedatives, opiates, hallucinogens, marijuana, alcohol, nicotine, and prescription drugs); bio-physiological mechanisms of addiction,
- (4) The roles and fields of practice of social workers in the field of addiction,
- (5) The larger context of drugs in our society and how our current criminal justice approach to drugs has failed and how our society would benefit from a public health model of controlling currently illegal drugs.

2. To develop skills in relation to:

- (1) Engagement of those who are affected by drug use and other addictions;
- (2) Assessment of those affected by drug use and other addictions;
- (3) Intervention with those affected by drug use and other addictions;
- (4) Intervention at the individual, family, community, organizational, institutional, and public policy levels with respect to drug use and other addictions.

UNIVERSITY POLICIES

“Regular attendance is expected of students in all their classes (including lectures, laboratories, tutorials, seminars, etc.). Students who neglect their academic work and assignments may be excluded from the final examinations. Students who are unavoidably absent because of illness or disability should report to their instructors on return to classes.” (UBC Calendar)

Academic Dishonesty: Please review the UBC Calendar “Academic regulations” for the university policy on cheating, plagiarism, and other forms of academic dishonesty. Also visit www.arts.ubc.ca and go to the students’ section for useful information on avoiding plagiarism and on correct documentation.

Retaining Assignments: Students should retain a copy of all submitted assignments (in case of loss) and should also retain all their marked assignments in case they wish to apply for a Review of Assigned Standing. Students have the right to view their marked examinations with their instructor, providing they apply to do so within a month of receiving their final grades. This review is for pedagogic purposes. The examination remains the property of the university.

COURSE POLICIES

ATTENDANCE

The attendance policy is in the student handbook on page 11: <https://socialwork.ubc.ca/current-students/>.

The School considers class attendance to be an essential component of integrated learning in professional social work education. Therefore, regular attendance is *required* in all social work courses. Instructors may count repeated late arrivals or early departures as an absence, and a meeting should be setup to discuss this with the student.

The University accommodates students with disabilities who have registered with Access and Diversity. Students, who will require accommodation for attendance due to disability, are encouraged to inform the instructor, and if necessary, to contact Access and Diversity preferably not later than the first week of class. The School will also accommodate religious observance, according to University Policy 65, and students are expected to inform the instructor. Students who wish to be accommodated for unavoidable absences due to varsity athletics, family obligations, or other similar commitments, must notify their instructors in writing at least two weeks in advance, and preferably earlier. This reflects expectations for professional social workers in their place of employment.

If students miss three or more classes, they may be considered to have not met the requirements of the course. If students have valid reasons, they could be withdrawn from the course with the approval of the instructor – otherwise, they would fail the course.

SUBMITTING ASSIGNMENTS:

Assignments are due as noted in this course outline, unless otherwise informed by the instructor.

RETURN OF MARKED STUDENT ASSIGNMENTS:

All assignments are to be submitted via the UBC Canvas course site. Assignments will be marked with track changes and comments provided in the same manner.

LATE ASSIGNMENTS:

Generally, late assignments will not be accepted. In emergency situations, students must discuss any potential lateness with their instructor and be prepared to have a medical certificate available. Assignments submitted after the deadline with no documentation will be penalized by one percentage point per day.

ASSIGNMENTS

COURSE ASSIGNMENTS, DUE DATES AND GRADING:

Assignment 1: Group presentations

Students will both present and facilitate discussion and mutual development of knowledge on a given topic in the addictions field. In your presentation, you are asked to examine, in depth, an area of addiction treatment, related to one of the following categories:

- (1) Older adults and substance use
- (2) Treating addiction in correctional settings
- (3) Addiction and Aboriginal healing
- (4) Working with new immigrants and refugees with addiction issues
- (5) Addiction and pregnancy

In the first class, you will be asked to choose a selected topic for your presentation and will be scheduled according to topic chosen. For the presentation, you are encouraged to bring in any resources or materials that would benefit the class, including a critical review of current literature and research.

Evaluation will be based on the following criteria:

- (1) How effective was the presentation in regard to:
 - Content (related to the topic)
 - Cohesion (as reflected in organization and format)
 - Completeness
 - Clarity
 - Creativity
- (2) How well did you stimulate discussion among class members, and engage the class in examining the topic?

Presentation days—Group 1, 2 (Nov 15th), Group 3, 4 (Nov 22nd), Group 5 (Nov, 29th)

Weight: 30%

Assignment 2: mid-term exam

The mid-term exam will be an in-class exam consisting of multiple choices and short answer questions based on course readings and lectures.

Details of the exam will be covered on first day of class and posted on Canvas

This exam will be held in-class on November 1st and account for 30% of final grade.

Assignment 3: End of term paper

All students will write an end of term academic paper between 8 -12 double-spaced pages, (excluding cover and references which are APA style; font, Ariel or New Times Roman, size 12). This paper will be an analysis of a topic that is both relevant for social work and addictions, will build on existing references, and will include the student's original commentary literature. The topic can be an expansion upon the student's class presentation.

The goal is to produce a type of paper that could be published in a peer reviewed academic journal. All students will submit their suggestions for topics that will need to be approved in advance.

Due date: This paper will be due on December 6th via Canvas

This paper will be 30% of final grade.

Class Participation

For this class to be successful in reaching its goals, regular student attendance and a desire to actively participate in learning and teaching, is critical.

Students will be asked contribute by:

- attending all classes (and being punctual)
- actively participating in the creation of a safe, positive learning environment
- reading all the required materials and participating in an informed discussion in class
- expressing constructive, thoughtful views on materials presented in the class
- active participation in practice experiences and role plays
- engaging other students with questions and ideas
- giving and receiving constructive feedback

Class attendance will be 10% of the final grade.
